PRICE LIST

NOBLE NURSERY

Noble, Oklahoma

Would you like to buy trees and plants where every dollar does it whole duty and buys a FULL DOLLARS WORTH of real plant value? If so, you must buy direct from the nursery, because if you buy from an agent he will keep as his commission 25 to 50 cents of every dollar you pay him. The balance will not buy you a full dollars worth of trees. Give us your order and save the difference. An ever increasing number of real home builders have seen the point and are looking to us each season to supply their needs in nursery stock.

It is our aim and we always try to make each deal satisfactory to the customer. If we succeed tell your friends about it; if we fail tell us, and if the fault is ours we will endeavor to make satisfactory adjustment.

Trees and plants of all kinds are necessarily higher this season. All the items of labor and material that go into the production of nursery stock have advanced two to five fold, and there will be no more low priced trees for at least two years. Not only this but the supply for this seasons planting is very short. Many who delay buying until toward spring will get no trees at all. Our stock last year was exhausted some three or four weeks before the planting season was over, and we expect to close out early this season, hence urge our friends to buy at once while we can fill your orders.

PEACH TREES

One year tops on two year roots.

First size, 4 to 6 feet and up, each.....35c
Second size, 3 to 4 feet.....25c

June Varieties

MAYFLOWER
ALEXANDER

Varieties of Pears

MANNING
BARTLETT
FLEMISH BEAUTY
MISSION
SECKEL
KEIFFER

Varieties of Plums

RED JUNE
BURBANK
GOLD

Hansen Hybrid Plums

These new varieties are the same price as others. Very hardy and prolific; bear when others fail. Have not missed a crop in the four years we have grown them. Little one and two year trees bear more fruit than they can hold up. Medium size, extra quality. Varieties listed approxi-

mately in order of ripening, covering about four to six weeks.

CPATA
SAPA
CHERESOTA
WACHAMPA
EZEPITAN
KAGA
HANSKA
TOKA

Varieties of Apricots

For 20 years we have propagated the best Apricot we ever saw, and have never found the man who could positively identify it. The variety came here in the early nineties as Moorpark, yet it is earlier, larger and deeper in color than the Moorpark as now grown by western nurserymen. We grow and sell more trees of it than all others combined and for want of a better name have continued to list it as we got it.

"MOORPARK"

EARLY GOLDEN
SUPERB

Varieties of Cherries

Early Richmond comprises about two-thirds of our stock. Others are

LARGE MONTMORENCY
MONTMORENCY ORDINARY
ENGLISH MORELLO

As soon as the trees can be grown we will introduce a big new sweet cherry from the celebrated Moulton Orchard west of Oklahoma City. A sweet cherry that will thrive here and produce heavy annual crops has been a long felt want among orchardists, and the Moulton Sweet has convinced us of its ability to deliver the goods. Watch for it.

GRAPES

We did not grow grape vines this season, and so far have been unable to procure any, but are planning to propagate a full assortment for next season.

BERRIES

For several years we have grown one to five acres of Blackberries for market and have tested a number of varieties without finding one worth growing here except

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

Early Harvest. We are increasing our plantings of it and offer a limited number of Choice Nursery Grown Plants at \$3.50 per 100.

Raspberries and Dewberries, \$3.00 per 100
 Everbearing Strawberries \$2.50 per 100
 Common Strawberries \$1.00 per 100

RHUBARB OR PIEPLANT

The best variety we ever saw; big, early, pink tender stalks. Does not make seed and is propagated only by dividing the old crowns.

Strong Divisions, per dozen.....\$1.50

Seeding Rhubarb, half price, but it is not worth planting.

SHADE TREES

There is one best shade tree for this section, and we have about discontinued the propagation of all others. It is almost a tree without a fault. In ten years observation we have never seen it attacked by an insect pest or a fungus disease. It grows on tight, hard, poor soils with half a chance, but if planted on good soil and pushed, it makes **shade right now**. We refer to the Shade Mulberry, variously known as Non Bearing, Paper White, Barren or Male Mulberry (not the Multicaulis of the south. That variety is too tender for our winters.)

Through Mr. Maddox, a landscape gardener, we furnished, last spring, about a hundred of them for the Rose Hill Burial Park overlooking Belle Isle. They were planted without loss in the hard red hill soil and before the end of the first summer they showed more growth and were a better prospect for shade than many of the other trees planted two and three years.

We have a good stock of them and are increasing our plant each season.

Select Specimens, 10 ft. high, 1½ to 2 inch stems, each\$1.50

Choice Trees, 8 to 10 ft. high, 1¼ to 1½ inch stems\$1.00

Good Trees, 6 to 8 ft. high, 1 to 1¼ inch stems, each75c

Smaller sizes and those not fit for above grades, yet good enough to grow into fine trees, 25c and 50c.

EVERBLOOMING ROSES

Field Grown Plants, each 35c; Doz. \$4.00
 Small Pot Plants, for spring only Doz. 1.50

All the roses we sell are Everbloomers, Teas, Hybrid Perpetuals, etc., except a few hardy climbers as Ramblers and Prairie Queen. Good assortment of colors and varieties that furnish continuous bloom from May to December.

EVERGREENS

The price of this stock is not so important as getting it handled and planted so it will live and grow. We carry Native Cedar, all sizes, also several other varieties that do well here and know how to handle them successfully. Ask us about your needs in this line. We are prepared to give you A-1 service.

CALIFORNIA PRIVET FOR HEDGING

The kind that does not blight. Nearly evergreen, retains foliage till mid-winter or later.

Choice 1 year plants, well branched, per 100, \$3.50.

Light 1 year plants, 12 to 15 inches, per 100, \$2.00.

VINES FOR PORCHES AND ARBORS

Purple and White Wistaria, Kudzu, Clematis Paniculata, Scarlet Trumpet, Assorted Honeysuckle, Ampelopsis.

Strong Field Grown Plants, each, 25c

Special attention is called to the Japanese Kudzu Vine. It can be grown 20 to 30 feet the first season and nobody knows how far for the second.

HARDY SHRUBS

General Assortment, 1 year Field Grown, each, 25c.

Japonica, Lilac, white and purple; Althea, all colors; Tree Honeysuckle, white and pink; Weigela, white and pink; Spiraea, assorted; Deutzia, Pussy Willow, False Indigo, Japan, Barberry, Philadelphus, Bridal Wreath.

BULBS FOR FALL AND WINTER PLANTING

These will arrive direct from Holland in October or November and should be planted not later than January. They give a mass of brilliant color from earliest spring

PRICE LIST—NOBLE NURSERY, NOBLE, OKLA.

till hot weather when they ripen up and may be saved like onion sets or left to bloom the following season.

Crocus, Early Tulips, Darwins, Parrots and Late Flowering Tulips; about 30 named varieties, each 10c; dozen \$1.00.

Double Hyacinths, red, blue, white and yellow, named varieties, each 20c; Dozen \$2.00. Less than a dozen at each rates only. 100 choice bulbs, good assortment, our selection, \$7.50.

CANNAS

King Humbert, Wyoming, Martha Washington, Austria, Burbank, Crimson Bedder, Edna Gray, Crozy and others. Good corms each 10c; dozen \$1.00; 100, \$6.50.

MISCELLANEOUS

Tube Rose Bulbs, per doz.....50c

Tube Rose, big clumps, each 25c, doz. \$2.50
Horse Radish Sets (cut roots) dozen 25c,
per 100\$1.00

Asparagus Roots, doz. 25c, per 100....\$1.50

Peonas, red, white, pink, 35c, doz. \$4.00

Hardy Bermuda Grass Turf, per sk.....\$1.00

Sweet Violet, 2 yr. clumps, each.....25c

Dangerous insect pests and plant disease have become quite prevalent over the state. It is now just as necessary to spray as it is to plow or hoe if you aim at best results with fruits, flowers or shrubs. We have learned that eternal vigilance is the price of a clean nursery. Our growing stock has been inspected and passed each summer since 1905 by an authorized Entomologist, and every shipment carries a copy of our inspection certificate for the current year.
